

26th World Mining Congress
BRISBANE AUSTRALIA
26-29 JUNE 2023

New Mining Frontiers

This stream explores emerging and longer-term mining opportunities including space resources, ultra-deep operations, undersea exploration and rediscovery. It provides a forum for visionary thinking to imagine what our industry might look like in 10, 20 and 50 years from now.

Stream Keynote Speakers

Alan Duffy, Swinburne University Of Technology
Space Technology and Industries: Panel on the Future of Mining

Jerry Sanders, NASA
Space Mining is Coming: Implications for Space Exploration and Terrestrial Mining

Tony Egan, Glencore
ACARP: An Industry-Driven Model for achieving High-Impact R&D Delivery

Kylie Porter, Greater Whitsunday Alliance
Regional Aspirations: The clash of dreams and reality in a changing resource landscape

Mitche Schulte, NASA
Synergies Between Scientific Ocean Drilling and NASA

Kris Zacny, Honeybee Robotics
Ice Mining on the Moon With NASA Prime1 and Viper Missions
